

4 Courses

Cryptography and Information Theory

Symmetric Cryptography

Asymmetric Cryptography and Key Management

Cryptographic Hash and Integrity Protection

Sep 30, 2026

Alfaturachman Maulana Pahlevi

has successfully completed the online Specialization

Applied Cryptography

This specialization is intended for the learners interested in or already pursuing a career in computer security or other cybersecurity-related fields. Through four courses, the learners will cover the security of information systems, information entropy, classical cryptographic algorithms, symmetric cryptography, asymmetric/public-key cryptography, hash functions, message authentication codes, digital signatures, key management and distribution, and other fundamental cryptographic primitives and protocols.
